

# COMMUNITY INVESTMENT TAX CREDIT

**BUILD AFFORDABLE HOUSING. CREATE JOBS. STRENGTHEN COMMUNITIES.**

**AND GET A 50% STATE TAX CREDIT**

This is the power of **United Way's Community Investment Tax Program**. We provide donors— individuals, companies, and foundations— the opportunity to receive a 50% state tax credit for gifts of \$1,000 or more, while fueling the critical work of more than 30 Community Development Corporations (CDCs) across Massachusetts.

CDCs are non-profit organizations—community-based—who help to improve neighborhoods and the lives of individuals, families, and children. They work to engage local residents in efforts to build affordable housing, create and preserve jobs, and grow small businesses, among other resident-led initiatives to lift these communities.
